Subject:- Regarding allocation of Injection Tocilizumab as per GOI allocation to various

Health Facilities of Haryana.

In this regard, it is submitted that in reference to letter no. HMD/2021/1296-1495 dated 04.05.2021 issued by this office to All Civil Surgeons, Keepers of all Private Medical College/Hospitals in Haryana, providing COVID-19 related treatment (Flag 'C'), O/o HMSCL and to all concerned vide which necessary directions/guidelines have been issued regarding distribution of Injection Tocilizumab available in the State to individual COVID-19 Patients (allotted by Government of India).

In compliance to said orders, the duty of following officers has been assigned overall supervision and coordination for distribution of Injection Tocilizumab:-

1. Dr. Rajpal Shekhon, DS/MO, Outsourcing assisted by Sh. Satish, PA to DHS (HMD), she will cover the morning slot of the Technical committee meeting at 10-11 AM in the morning.
2. Dr. Ravinder Aehlawat, MO, MMIY assisted by Smt. Seema, PA to DHS (FW), he will cover the evening slot of the Technical committee meeting at 4-5 PM in the evening.

In this regard, it is submitted that :-

- There is an exiting online web Portal i.e. ODIMS, which is regular be monitored /maintained by O/o HMSCL& NIC.
- **The said portal is used for: -**

- Uploading the demand of Medicine & Consumables by Civil Surgeon (including COVID-19).
- Stock available at Warehouses/Health Facilities (including COVID-19).
- Procurement status (including COVID-19) like Rate Contact, Supply orders etc.
- Issuance to Warehouses and Health facilities (including COVID-19).
- Consumption made by Health facilities (including COVID-19).

- The said data is always available on Portal, which can be viewed/accessed by authorized officer/official in need base manner for monitoring at any time.

So, keeping in view of easy accessibility/Transparency/real time stock monitoring & availability of above said Portal i.e. ODIMS, it is proposed that: -

- 4x2
- An option may be created on ODIMS web Portal by O/o HMSCL/NIC for uploading the demand of **Injection Tocilizumab** by Civil Surgeon or Private Hospital with approved Performa, so that a single portal can be utilized rather than creating a new Portal. The technical committee will access the portal for demand of **Injection Tocilizumab** on daily and upload the report of suitable beneficiary on the Portal, so that the same report will be visible to all Civil Surgeons & Keeper Holder of all Private Medical College/ Hospitals providing covid-19 related treatment.

The benefits of creating the above said option on ODIMS web Portal are as under: -

- 4x3
- It is a Government web Portal and maintained by Government Agency i.e. National Information Center (NIC).
 - Data will be available at all time and any information can be fetched/viewed by any authorized person at any time in need-based manner.
 - E-mail created on Gmail account is a private account and which can be misused/hacked/deleted inadvertently or intentionally, the data cannot be retrieved if email gets permanently deleted.
 - The data on said Portal will always be in backend and cannot be deleted without any authorized access.
 - If there is any misuse of information available on Portal the same will be covered under IT Act etc. and legal action by the Government can be taken accordingly.
 - It will take less time to create an extra option on ODIMS web portal rather than creating a fresh web Portal as per verbal discussion with NIC Personnel.
